

Make your existing computer and printer work for you and reap the financial rewards!

CrystalDrop Technology™

- No costly plate/set-up charges as the process makes use of your existing computer, inkjet printer and our hard/software & resins.
- Import identical or different images onto the work page, in any shape or size. Then simply 'print and cut' the number of labels required for doming.
- No ink on your hands, and no noise or mess.
- Takes up minimal desk space.
- Even teenagers can take part and put their computer knowledge to good use. This makes the whole process educational and fun too!.
- Full colour always sells better than single colour print.
- Superior dome finish offers upmarket appeal without costing
